### What do we cover?

Plans may offer supplemental benefits in addition to Part C benefits and Part D benefits. Like all Medicare health plans, we cover everything that Original Medicare covers – and *more*. Some of the extra benefits are outlined in this booklet.

## SECTION I - INTRODUCTION TO SUMMARY OF BENEFITS

We cover Part D drugs. In addition, we cover Part B drugs including chemotherapy and some drugs administered by your provider.

- You can see the complete plan formulary (list of Part D prescription drugs) and any restrictions on our website, [cloverhealth.com/formulary](https://cloverhealth.com/formulary).
- Or, call us and we will send you a copy of the formulary.

For coverage and costs of Original Medicare, look in your current “Medicare & You” handbook. View it online at [www.medicare.gov](https://www.medicare.gov) or get a copy by calling 1-800-MEDICARE (1-800-633-4227). TTY/TDD users should call 1-877-486-2048.

### How will I determine my drug costs?

Our plan groups each medication into one of five “tiers.” You will need to use your formulary (Drug List) to locate what tier your drug is on to determine how much it will cost you. The amount you pay depends on the drug’s tier, what pharmacy you use, and what benefit stage you have reached. Later in this document we discuss the benefit stages that occur: Deductible Stage, Initial Coverage, Coverage Gap and Catastrophic Coverage.

For 2022, **Clover Health Classic (HMO) (plan 002)** participates in the Part D Senior Savings Model which offers lower, stable, and predictable out of pocket costs for covered insulin through the different Part D benefit coverage stages. You will pay a maximum of \$35 for a 1-month supply, \$70 for a 2-month supply, or up to \$105 for a 3-month supply of covered insulin during the deductible, initial coverage and coverage gap or “donut hole” stages of your benefit. Catastrophic phase cost shares would still apply. Your cost may be less if you receive Extra Help from Medicare or if you use a preferred pharmacy. To find out which drugs are Select Insulin Drugs, review the 2022 Drug List.

<b>Select Insulin Drugs</b>	<p>For 2022, this plan participates in the Part D Senior Savings Model which offers lower, stable, and predictable out of pocket costs for covered insulin through the different Part D benefit coverage stages. You will pay a maximum of \$35 for a 1-month supply, \$70 for a 2-month supply, or up to \$105 for a 3-month supply of covered insulin during the deductible, initial coverage and coverage gap or “donut hole” stages of your benefit. Catastrophic phase cost shares would still apply. Your cost may be less if you receive Extra Help from Medicare or if you use a preferred pharmacy. To find out which drugs are Select Insulin Drugs, review the 2022 Drug List.</p>	<p>This plan does not participate in the Part D Senior Savings Model in 2022.</p>
