At Clover Health, our commitment to members means not only looking out for your health but also helping you take care of your health. And that includes your financial health.

Prices at grocery stores and drug stores have been going up recently. We know this can be hard for some of our members, and we want to ease your burden. As part of your Clover plan, we give you a quarterly allowance to purchase over-the-counter (OTC) items and groceries to help you save money on things like fruits and vegetables, aspirin, vitamins, and so much more.

## How Your OTC and Grocery Plus Benefits Work

### Your quarterly allowance

As a valued Clover Health member, you get a spending allowance to use on over-the-counter items. If you qualify, you can also use your allowance on healthy groceries and prepared meals at no extra cost to you. We call this Grocery Plus. Your allowance amount applies to the Grocery Plus benefit (if you qualify) as well as your OTC benefit.

This combined allowance is quarterly, which means it renews on the first day of every January, April, July, and October. Unused funds do not roll over into the next quarter.

Please try to *use your full allowance* by the end of every quarter so you don't lose any of it!

### Your LiveHealthy OTC (Healthy Benefits+) card

You should have received a Healthy Benefits+ welcome kit with your LiveHealthy OTC card in the mail. For your convenience, the LiveHealthy OTC card is already activated. So you don't need to do anything except start purchasing your OTC items. If you don't have the welcome kit, please call us for a replacement!

You can use your LiveHealthy OTC card to purchase your OTC items, groceries,\* prepared meals,\* or some of each.

\*You must have a qualifying condition to be eligible for Grocery Plus. See page 11 for more information.

**Note:** If you don't qualify for the Grocery Plus benefit, you will still have your OTC allowance.

OTC + Groceries

How to Use Your Allowance

You can use your LiveHealthy OTC card to get your OTC and food items in any of three ways:

- 1. In-store – OTC and groceries
- 2. Online – OTC, groceries, and prepared meals
- 3. By phone – OTC only

In-store shopping

You can purchase OTC and grocery items at many retail locations in your area. When shopping in store, simply present your LiveHealthy OTC card at checkout. The cashier will scan the barcode on the back of your card at checkout, or you can scan it yourself if you use self-checkout.

Hey! Save money by buying store brands from stores like CVS, Walgreens, and Walmart! See page 10 for more.

To find a specific store address, use the store finder at [healthybenefitsplus.com/cloverhealthotc](https://healthybenefitsplus.com/cloverhealthotc) or use the Healthy Benefits+ mobile app.

Troubleshooting tips

If the cashier is unsure about using the LiveHealthy OTC card, ask to see the manager for assistance.

If the barcode will not scan, it could mean that you need a replacement card. Not to worry. In some stores, an employee can manually enter the 17-digit account number and 4-digit security code found below the barcode on the back of your card. If a scanning error occurs, when you get home, just call **1-844-529-5869 (TTY 711)** and ask for a replacement. A new card will be sent to you as quickly as possible.

OTC online orders

You can shop for OTC items online at **walmart.com**. Shipping costs for walmart.com OTC orders are on us! Or you can order your items online and arrange to pick them up at your local Walmart. Please follow the steps below to place an order.
